PETROLEUM SOURCING

## 1. EXECUTIVE SUMMARY & CORPORATE PROFILE

**S Yohan Consulting** is an established international trading, bulk fuel wholesale, and agricultural advisory group operating globally for over 15 years. Built upon high standards of execution and long-term strategic relationships, the company serves as a vital bridge between commodity producers, industrial consumers, and global markets.

With core operational bases in South Africa and the United Arab Emirates, S Yohan Consulting delivers integrated solutions spanning **Energy & Petroleum Wholesale**, **Agricultural Development & Tech Integration**, **Coffee Manufacturing**, **Mining Operations**, and **Enterprise ICT Solutions**.

## 2. SECTOR CAPABILITIES & OPERATIONAL FOCUS

### PETROLEUM & WHOLESALE FUEL DISTRIBUTION

Supported by a verified supply network across European markets, S Yohan Consulting secures reliable sourcing of high-grade petroleum products. In South Africa, the company acts as a licensed wholesale distributor, supplying bulk fuel to commercial enterprises, resellers, and industrial sectors.

### MINING & MINERAL ENERGY TRADE

Delivering expert trade execution, regulatory alignment, and supply chain management across mineral energy commodities, connecting international buyers with established resource producers.

### AGRICULTURAL DEVELOPMENT & TECH MODERNIZATION

We build a sustainable foundation for employment in agriculture. Our advisory teams conduct rigorous onsite evaluations of agricultural business plans, introducing modern technology to optimize yield, operational efficiency, and long-term scalability.

### ICT SOLUTIONS & BULK LOGISTICS

Deploying customized ICT infrastructure and data solutions to enhance operational monitoring, inventory transparency, and cross-border transport logistics for key industries.

### COFFEE MANUFACTURING & PROCESSING

Professional international trading and processing solutions for green and processed coffee beans, adhering to strict quality control standards across global distribution channels.

### Onsite Agricultural Business Plan Evaluation

Specialized field audits and feasibility evaluations for agricultural projects—helping investors and operators mitigate risk and drive technological transformation.
